### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Continued Examination Under 37 CFR 1.114*

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/15/2007 has been entered.

### *Claim Rejections - 35 USC § 103*

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

1. Claims 1, 5-15 and 17-48 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bitdinger et al (US 5,478,316) as modified by Bitdiner.

Bitdinger discloses in Figure 19 an injection system comprising a cartridge housing (20), a shield (28) having a release mechanism (28A) and bias member (40), automatic injection system (12); a sleeve (58) and sleeve bias member (56). Bitdinger discloses the claimed invention except for the cartridge housing a pre-filled medical cartridge. It would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the cartridge housing of Bitdinger by adding a pre-filled cartridge, as such a modification would provide a system which would be capable of being used with a wide variety of medications upon selecting a desired cartridge.

Art Unit: 3767

2. Claim 16 is rejected under 35 U.S.C. 103(a) as being unpatentable over Bitdinger in view of Holman et al (US 5,104,380).

Bitdinger et al disclose the claimed invention except for a depth adjuster. Holman et al disclose in Figure 1 that it is known to use a depth adjuster. It would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the system as taught by Bitdinger with a depth adjuster as taught by Holman, since such a modification would allow for control of the injection penetration.

*Allowable Subject Matter*

Claims, 2-4, objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

*Response to Arguments*

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Catherine N. Witczak whose telephone number is (571) 272-7179. The examiner can normally be reached on Monday through Friday, 8-5 EST.
